- I have experience in HTML/CSS3 and JavaScript working on front end project such as creating a shopping groceries website, calculator, quiz app, stopwatch timer...etc. and put my project in my GitHub repository
- I have experience in MySQL database and doing a project like storing a real time data into our database.
- To obtain a position that will allow me to utilize my technical skills and willingness to learn in making the organization successful.

## WORK EXPERIENCE

Software Engineer

OCT 2021 – Present

Mayilveera Tech Solutions and Consultancy

I've learned a great deal of things which are key to understanding the corporate structure and this was most definitely a valuable experience. I have experience in using a database and storing the real time data from getting FTP server. And also gain the knowledge how work on the project, reverse engineering concepts to modify the exist project.

## COURSE

ACCIOJOB

Full Stack Developer

I want to become a full stack developer. Acciojob was helping a lot to learn new things like all the front Technologies like html5, css3 and JavaScript. And also learning the data structure algorithms and logic also.

Acciojob was conducting a building session on daily and to do the task on daily basis to improve our performance.
